

Laser Checks Pricing Guide

All checks are available in blue, green or brown and have the following features:

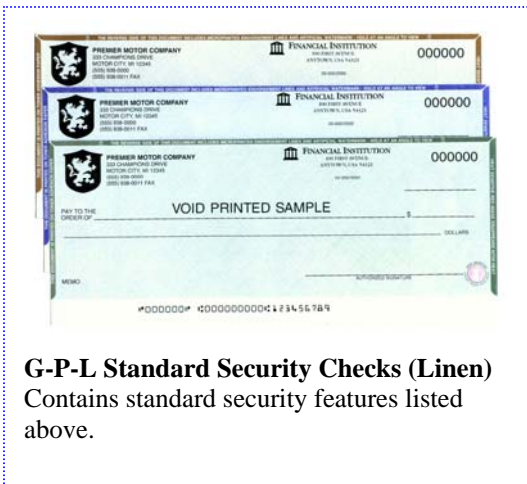

The security features on these checks exceed industry guidelines

The Standard Security Checks (Linen) Feature the Following:

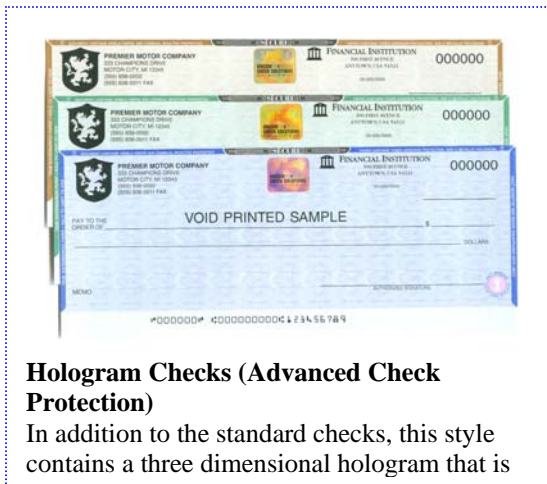

- Heat Sensitive Icon – responds to warmth. Hold between thumb and forefinger or breathe on it and the image will fade and reappear.
- Warning Band – Alerts handler the document contains security features
- Microprint – endorse lines appear as dotted lines when copied.
- Diagonal Dimensional Backers – Different spacing of diagonal lines used as an anti-cut and past device
- Artificial Watermark – Hold at angle to view. Absence of this feature when copied.
- Toner Grip – Paper is treated with a Toner Adhesion Coating. If altered, the document text appears broken
- Colored Background – Pattern protects against alterations.
- Invisible Fluorescent Logo (Linen only).

Advanced Check Protection Documents have the above listed security features plus:

- Hologram – three dimensional metallic image fused on the paper
- True Watermark – Paper with unique security images embedded into the paper, which can only be viewed by translucent “pass through light”
- Chemical Protections – When chemically altered, the area treated will appear as a brown stain or spot.
- Visible Fibers – Florescent fibers which only show up under a UV black light.
- Chemical Wash Warning Box.

G-P-L Standard Security Checks (Linen)
Contains standard security features listed above.

Hologram Checks (Advanced Check Protection)
In addition to the standard checks, this style contains a three dimensional hologram that is
