

Policy for Redeeming Internet or Computer Generated Coupons

Due to increased coupon fraud, especially in the area of coupons that are downloaded from the Internet and printed on a home computer, we have adopted the following policy to reduce the number of fraudulent coupons. We appreciate your understanding.

1. We are unable to redeem “free product” Internet or computer generated coupons;
2. We will honor Internet/computer generated coupons that are \$2 or less;
3. We will accept Internet or computer generated coupons that scan. Coupons that do not scan cannot be accepted;
4. We will accept Internet or computer generated coupons with a “Household Name” printed on the front of the coupon.

Thank you for shopping with us. We appreciate your business and your understanding regarding the new coupon policy.
